

ABOUT US

Our mission is to enable students, research scholars and clinicians to acquire skills in advanced bioinformatics.

OUR SERVICES

NGS Data Analysis

Whole Genome Sequencing
Metagenomics
Single-Cell RNA Sequencing

In Silico Drug Discovery

Software

Python, R
Jupyter notebook
Linux
Machine Learning

WHY CHOOSE US

- ✓ We offer a broad range of high quality hands on training courses in bioinformatics ranging from basics to advanced data analysis
- ✓ Training syllabus is well structured and is designed in accordance with the current state-of-the-art
- ✓ Our team is experienced in training more than 400+ students
